WHAT TO EXPECT

The Clackamas River offers spectacular world-class whitewater rafting and kayaking, breathtaking scenery and lots of fun, exciting rapids, making it one of the best day trips from Portland for both locals and visitors alike.

Douglas fir trees tower above the clear blue waters and deep pools of this designated Wild and Scenic River, which originates at Olallie Lake deep in the Cascade Mountains. The Clackamas is well known among anglers for its steelhead, coho salmon and trout fishing. And among the whitewater crowd, this river has long been loved for its numerous, tumbling Class III-IV rapids and year-round accessibility.

From March–June, the spring and early summer snowmelts create high flows, thrilling rapids, and giant wave trains that are exciting for beginning and advanced rafters alike. As the water levels drop through the later summer months (July–Aug), the run becomes tighter and more technical.

All of our trips run the “Upper Clackamas” section, putting in at Indian Henry Campground. You’ll get a small warm-up before running the first major rapid, Powerhouse (Class III+). Then you’ll continue floating swiftly through a basalt canyon, braving numerous rapids, including The Narrows and Roaring River, before stopping for lunch. After lunch, you’ll drop down six more rapids before landing at the take-out at Moore Creek.
